

In bringing together the people for our panels and workshops, we have chosen parents, family members, priests, religious, business leaders, industry experts and those who will share personal experience of issues that are a challenge in daily family life.

With speakers coming from all five major continents of the world, the programme is international and varied. Around 80% of contributors are lay speakers, mostly couples, while around 20% are clergy and religious.

All the videos can be found directly at the link below.
